

ICT BASED EVALUATION METHODOLOGY TO ASSESS THE SOCIAL IMPACT OF WORK-LINKED TRAINING

ERASMUS + Project No. 2017-1-ES01-KA202-038537

Co-funded by the
Erasmus+ Programme
of the European Union

Project's Aims, Objectives and Target Group

AT WORK aims to develop a methodology to evaluate the impact on persons, organisations and context of work linked training activities.

AT WORK project has a number of **specific objectives** as follows:

- * Improve the environment of training evaluation through a new assessment tool;
- * Promote a suitable framework to promote work-linked training;
- * Provide with innovative method to define work-linked training programmes;
- * Improve the employment ecosystem through impact evaluation;
- * Contribute to develop the social dimension of training, adapting it to new requirements of sustainability.

AT WORK operational objectives are:

- ◇ Assess the state of the art of different methodologies to evaluate work-linked training;
- ◇ Identify gaps and barriers for the development of these methodologies in employment ecosystems;
- ◇ Create a set of inputs that allow work-linked training providers deal with the previous gaps and barriers;
- ◇ Analyse the use of ICT based methodologies to use them in work linked training assessment;
- ◇ Design an assessment methodology that allow create specific evaluation process for work-linked training.

AT WORK project **target group** are: **work-linked training providers; employment centres; training managers in companies.**

Benefits for target group:

- Build their capacity on developing and assessing work-linked training programs
- Improve the addressability of evaluation framework of work-linked training for various types of enterprises.

The project will contribute not only to an effective development of European dimension of education, but to the promotion of other relevant European policies as: environment, eco-innovation, competitiveness and growth and sustainable development.

RESULTS OF THE PROJECT will be developed during the 24 months of project's life

ATWORK EVALUATION FRAMEWORK TO ASSESS THE SOCIAL IMPACT OF THE WORK-LINKED TRAINING

A theoretical framework to evaluate the social impact of work-linked training, supported in an ICT tool. This methodology will focus on different evaluation areas and criteria that will create a new and innovative evaluation methodology.

◆ Comparative analysis of the existing evaluation on work-linked learning

◆ ATWORK theoretical framework for evaluation

◆ Development of ATWORK ICT based platform

◆ ATWORK handbook

FOUR TRANSNATIONAL MEETINGS will take place during the project's life

On February 22nd and 23rd, 2018, partners of the project have met in Madrid, for the first transnational meeting.

The host was **AGENCIA PARA EL EMPLEO DE MADRID** - the coordinator of the project.

FIVE MULTIPLIER EVENTS will take place during last months of project implementation.

Each event will have a specific theme:

- ◆ EUROPEAN CONFERENCE / Spain
- ◆ WORKSHOP "EVALUATION METHODOLOGIES FOR WORK-LINKED TRAINING" / Austria
- ◆ WORKSHOP "MEASURING KEY COMPETENCES AND THEIR IMPACT IN WORK-BASED TRAINING" / Poland
- ◆ CONFERENCE "EVALUATING SOCIAL IMPACT OF TRAINING" / Romania
- ◆ WORKSHOP - "ASSESSMENT SKILLS AND COMPETENCES THROUGH EVALUATION OF TRAINING" /
